WORK EXPERIENCE

Data Analyst (Remote)

IBCS-PRiMAX

12/2023 – 04/2026 | Bangladesh

- Collected, cleaned, and transformed data from multiple sources using **SQL**, **Python**, and **Excel** to support business reporting and decision-making.
- Developed and maintained **10+ Power BI and Tableau dashboards** to monitor KPIs, business performance, and operational trends.
- Performed **data analysis** to identify patterns, trends, and opportunities, delivering actionable insights to business stakeholders.
- Automated recurring reporting processes using **SQL**, **Power Query**, and **Excel**, improving reporting efficiency and reducing manual effort.
- Collaborated with **cross-functional teams** to gather business requirements, ensure **data quality**, and deliver accurate reports and visualizations.

Technologies: SQL, Power BI, Tableau, Python, Excel, Power Query

Data Analyst – Data Insights & Visualization

Kazla Technologies Ltd.

02/2018 – 03/2021 | Bangladesh

- Supported the implementation of **data analytics frameworks** and **self-service analytics** solutions to improve business decision-making.
- Provided support and guidance to business users in creating and maintaining **reports and dashboards** using BI tools.
- Assisted in defining and developing **KPIs and performance metrics** to support business analysis and consulting activities.
- Collaborated with cross-functional teams to analyze business requirements and implement actionable data-driven recommendations.
- Helped establish a **data analytics community** by sharing knowledge and promoting best practices across teams.

Technologies: Tableau, Power BI, Azure Synapse Analytics, Excel, Airtable, Confluence, SharePoint

Werkstudent Reporting and Analytics

1 & 9 Apparel Creator Ltd.

05/2017 – 10/2017 | Bangladesh

- Supported the **Customer Insights** team by cleaning, validating, and retrieving data using **SQL** and **Excel** to improve reporting accuracy.
- Assisted in developing and maintaining **Tableau** dashboards and reports to support business performance monitoring.
- Provided technical support for **Tableau** reporting applications, ensuring reliable access and usability for business users.
- Maintained the **Reporting and Analytics** portal on **SharePoint Online** while supporting user access management and compliance processes.
- Analyzed **customer trends** and purchasing behavior to generate insights that supported product and business improvement initiatives.

Technologies: SQL, Tableau, Microsoft Excel, SharePoint Online

TECHNICAL SKILLS

Business Intelligence & Data Visualization: Power BI, Tableau, DAX, Dashboard Development, Data Visualization, KPI Reporting, Data Modeling, Business Reporting, ETL, Interactive Dashboards

Advanced Excel & Microsoft Tools: Advanced Excel (Pivot Tables, Power Query, Lookup Functions, Formulas), Microsoft Office Suite, SharePoint Online, Microsoft Power Apps

Data Platforms & Cloud Technologies: Azure Synapse Analytics

Data Analytics & Programming: SQL, Python, R, Data Analysis, Data Cleaning, Data Transformation, Exploratory Data Analysis (EDA)

Statistical Analysis & Machine Learning: Statistical Methods, Regression Analysis, Classification, Random Forest, K-Means Clustering, Support Vector Machine (SVM), Deep Learning Concepts.

LANGUAGES

German — B1 | English — IELTS C1 | Bengali — Native

EDUCATION

Master of Science in Econometrics

Technical University Dortmund

10/2020 – Present | Germany

Relevant Coursework: Big Data Analytics, Deep Learning, Advanced Statistical Learning, Statistical Theory, Case Studies in R, Programming with Python

Bachelor of Science in Computer Science and Engineering

Daffodil International University

01/2012 – 02/2016 | Bangladesh

Academic Achievement: Ranked 2nd in the department

PROJECTS

Sales Order Dashboard & Business Performance Analysis

- Analyzed sales order data to identify **revenue trends, customer behavior, product performance, and operational efficiency**.
- Developed an interactive **Power BI dashboard** using SQL and Power Query to visualize KPIs and support data-driven business decisions.
- Transformed raw data into meaningful insights through data modeling, visualization, and performance analysis.

Technologies: Power BI, SQL, Power Query

Ticketing & Support Level Analytics Dashboard

- Developed an automated data pipeline using **Azure Synapse Analytics** for data processing and reporting automation.
- Created interactive **Tableau dashboards** to monitor support KPIs, ticket trends, and service performance metrics.
- Delivered actionable insights to identify improvement areas and enhance operational efficiency.

Technologies: Tableau, Azure Synapse Analytics, Excel.

Health, Safety & Environment (HSE) Data Analysis Dashboard

- Developed an interactive **Tableau dashboard** to analyze HSE KPIs, monitor performance trends, and identify improvement opportunities.
- Created dynamic visualizations to provide stakeholders with real-time insights for performance monitoring and decision-making.
- Presented analytical findings and recommendations to support continuous improvement initiatives.

Technologies: Tableau, Excel

Brain Tumor Detection

Brain Tumor Detection Using Deep Learning

- Developed a deep learning-based image classification model to detect and classify brain tumors from MRI images.
- Applied image processing and machine learning techniques using Python-based frameworks to improve automated diagnosis support.
- Evaluated model performance using classification techniques and statistical metrics.

Technologies: Python, TensorFlow, Keras, OpenCV, NumPy, Scikit-learn

CERTIFICATES

Python Programming for Beginners in Data Science

Technologies Learnt: Core concepts of Python Programming, Python standard library

Become a Data Analyst: Excel, SQL & Tableau

Technologies Learnt: The core concept of Tableau, Data Visualization using Tableau, filter, sort, look-up functions, pivot tables, formulas, etc.

Excel Basics for Data Analysis

Technologies Learnt: filter, sort, look-up functions, pivot tables, and formulas etc.

Data Analysis with Pandas and Python

Technologies Learnt: Matplotlib, Dictionaries & Pandas, Loops, Logic, Control Flow and Filtering

Microsoft Power BI: Beginner to Advanced Intelligence

Technologies Learnt: The core concept of Power BI, DAX Advanced, Power Query,

Tableau Advanced: Master Tableau in Data Science

Technologies Learnt: Create and use Groups, Sets, Formulas, Quick Table calculations, filters, Parameters, powerful storylines for presentation to Executives, etc.

AWARDS

Dean's Honor's Award

Merit-based outstanding results in Bachelor's degree at Daffodil International University

FISU World University Games 2025 Rhine-Ruhr, Germany

Volunteer Diploma: 16/07/2025-27/07/2025 (The International University Sports Federation, the German University Sports Federation, and the Organising Committee have the honour and the pleasure to present this Volunteer Diploma)
